

UNIVERSITY OF HEIDELBERG

The Heidelberg Faculty of Medicine Medical Data Scientist Programm

The Heidelberg Faculty of Medicine's Medical Data Scientist Programm is a component of its structured Career Development Programm. The central goal of the Medical Data Scientist Programm is to foster participating scientists' development into group or laboratory leaders in the field of medical research. The program is designed for post-doctoral scientists with above-average qualifications who are applying for a research position in the fields of medical informatics, medical bioinformatics, digitalization in medicine, or the medical data sciences at the Heidelberg Faculty of Medicine. Participants' research is accompanied by a mandatory curriculum and mentoring program. Participants are awarded a Heidelberg Medical Data Scientist Certificate confirming their completion of the program.

Up to two research positions

in the form of Medical Data Scientist Fellowships with a protected research period of a maximum of three years will be awarded. The Heidelberg Faculty of Medicine will fund a total of two years of full-time research. One additional year must be funded by the host clinic or institute.

Further information and application guidelines can be found at: <https://www.medizinische-fakultaet-hd.uni-heidelberg.de/forschung/forschungsfoerderung/foerderprogramme-der-fakultaet/career-development-programm/medical-data-scientists>

Complete applications must be submitted in electronic form as a single PDF file without editing restrictions to the Dean's Office for Research (*Forschungsdekanat*) of the Heidelberg Faculty of Medicine at its Career Development Programm Mailbox (career.development@med.uni-heidelberg.de) no later than:

Monday, April 15, 2024, 12:00 p.m.

Questions regarding the program should also be directed to the email address stated above. Please follow the current application guidelines.
